DAIVAKRUPA PANDITI

Frontend Web Developer | React.js, JavaScript, HTML5, CSS3 | Entry-Level Web Development Intern

Frontend Web Developer skilled in building responsive interfaces using HTML5, CSS3, JavaScript, and React.js. Completed virtual internships in full stack and cloud development, with hands-on experience in REST API integration, Git version control, and UI/UX best practices. Seeking entry-level web development roles to apply skills in frontend frameworks, code optimization, and modern design principles.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology
QIS College of Engineering and Technology

09/2022 - Present   *Ongole, India, CGPA 7.87*
Courses
- Completed courses Web Development, Data Structures, DBMS, and Object-Oriented Programming; developed a Churn Prediction model using Python, XGBoost, and GitHub.

PERSONAL PROJECTS

Customer Churn Prediction (05/2025 - 05/2025)
- Built a churn prediction model using Python, XGBoost, and Lifelines.
- Visualized customer retention with Kaplan-Meier survival curves.
- Deployed model via GitHub Pages using Jupyter Notebook.

Product Landing Page (06/2025 - 06/2025)
- Developed a responsive, SEO-optimized landing page using HTML5, CSS3, and Flexbox.
- Integrated a live contact form and deployed the site via GitHub Pages.
- Used Git and GitHub for code management and version control.

Blog Platform UI (07/2025 - 07/2025)
- Designed a responsive blog UI using HTML5, CSS3, JavaScript with a modular layout.
- Achieved 95+ Lighthouse scores by optimizing performance and accessibility.
- Improved UX with cross-browser support and semantic HTML.

VOLUNTARY EXPERIENCE

Frontend Web Developer (Volunteer)
Open Source Web Development Contribution

10/2023 - 03/2024   *Remote*
Achievements/Tasks
- Built responsive and interactive frontend interfaces with HTML5, CSS3, and JavaScript for seamless user experiences.
- Optimized mobile responsiveness and ensured cross-browser compatibility using responsive design principles.
- Enhanced UI performance, accessibility, and cross-platform consistency using modern design and UX best practices.
- Used GitHub for version control, collaborated in code reviews, and maintained technical documentation regularly.

SKILLS

Frontend Development: · HTML5 · CSS3 · JavaScript (ES6+) · React.js · Redux · React Router · CSS Grid · Tailwind CSS · Responsive Design · REST APIs · Backend & Databases: · Node.js · PHP · MongoDB · MySQL · Spring Boot · Python · Soft Skills: · Problem-Solving · Team Collaboration · Communication · Adaptability · Time Management

ACHIEVEMENTS

Full-Stack Website Design & Development Intern – I Studio ICAT (07/2025 - 08/2025)
Selected through I Studio ICAT National Internship Exam for Full-Stack Website Design & Development Internship; successfully built and deployed an E-Commerce Web Application using modern frontend and backend technologies.

TCS ion NQT – Cognitive Exam Qualified – Tata Consultancy Services (TCS ion) (08/2025 - 08/2025)
Achieved a 999 score in TCS ion NQT – Cognitive Exam; completed 5 professional development programs including Career Edge – Young Professional, Employability Readiness, Career Enhancement, and IT Primer.

CERTIFICATES

AWS Cloud Virtual Internship – Infosys Springboard (04/2025 - 06/2025)
Configured AWS EC2, S3, IAM, and Lambda; implemented CI/CD pipelines and DevOps automation to manage cloud infrastructure and streamline deployments.

Full Stack Java Developer Internship – Skill Dizer (05/2025 - 06/2025)
Built full-stack apps using Java, Spring Boot, MySQL; applied MVC architecture and collaborated in Agile, Git-based version-controlled environments.

Web Development Virtual Internship – VaultOfCodes (06/2025 - 07/2025)
Developed responsive SPAs using React.js, JavaScript, JSX; optimized UI/UX with accessibility best practices and integrated REST APIs in Agile teams.
